

Introduction to Synchronized Skating Class

Southern Stars will be hosting an Introduction to Synchronized Skating class this winter. This class will teach skaters the basics of synchronized skating. Synchronized Skating is when a group of skaters skate at the same time to create formations on the ice. Skaters will learn how teamwork is essential to synchronized skating. The class will be sharing the ice with the Southern Stars Synchro Team, so skaters will get to see how a competitive synchro team prepares for events while they are taking class.
